

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

LAW DEPARTMENT.

Report for the Year 1887.

OFFICE OF THE COUNSEL TO THE CORPORATION, }
December 31, 1887. }

Hon. ABRAM S. HEWITT, Mayor, etc.:

SIR—I have the honor to transmit herewith the annual report of the Law Department for the year ending December 31, 1887. It is arranged in conformity with the requirements prescribed by the Mayor in December, 1885, and fully exhibits the work done during the past twelve months and the condition of the City's law business at the end of the year.

Both as to the volume of business, and the character of the work performed, the office has not only equaled, but in many important departments, surpassed the high standard of efficiency attained in recent years.

It is only just to say, however, inasmuch as it is a conspicuous fact that the history of the departmental year consists of the records of two administrations, that this highly gratifying result is largely due to the admirable organization of the office perfected by my predecessor, the Hon. E. Henry Lacombe, and to the vigorous work which he did during the six months before he went on the Bench, and, not less, for the entire year, to the ability, energy, industry and fidelity displayed by his principal assistants, and by the Chief Clerk; during my brief term of office I have had the good fortune to retain all of these gentlemen, to the great advantage of the public interests. I sever my official connection with them with keen regret.

STATISTICS.

The statistics of the business of the office of the Counsel to the Corporation (exclusive of that transacted in bureaus which make their own reports) are contained in nine schedules; these schedules are now in the hands of the printer; they will be transmitted to you, together with a printed copy of this report, and the reports of the three bureau officers, in pamphlet form, according to the custom of former years, as soon as they are fully completed. A summary is here presented, however, condensed so as to indicate in a few pages the entire volume of work done.

	6,511
Ended during 1887	2,062
Pending January 1, 1888	4,449

SCHEDULE No. 5.

This is a list of claims received for collection, showing their disposition. To a certain extent it is intended to be a ledger account with the various departments transmitting claims, with the qualification that when a claim is put in suit, it disappears from this schedule to reappear in one or more of those concerned with litigated business. The recapitulation of this schedule is at present incomplete. I have reason to believe, however, that it will be fully made up when the detailed schedules are sent to you. The collections for the year are shown in the cognate schedule, No. 8 *post*.

SCHEDULE No. 6.

This is a list of the payments from the appropriations for contingencies and special services for the office of the Counsel to the Corporation, exclusive of salaries and the payments for the Bureaus. The amounts thus disbursed were :

General Contingencies	\$20,447 16
Contingent Counsel Fees	~~42,649 72~~
For preparing and presenting case of the City before Commission for New Parks in	~~44,079 42~~
Annexed District and Westchester County	14,943 28
Total	~~\$78,040 16~~

SCHEDULE No. 7.

This is a table showing the disposition of calendar cases. It shows what actions and special proceedings appeared on the day calendars of the courts during the year ; which ones were tried or argued, with the results of such trials or arguments, and which were adjourned. But a very small number of adjournments were had on the City's motion, and it may confidently be asserted that nine-tenths of the cases included in the list were fully prepared for trial by this office. This fact must be borne in mind when the table is examined as a record of work done, because the labor of preparation is almost always greater than the labor of trial or argument. If the Department were to be credited only with the cases actually disposed of the full measure of its yearly work would not be appreciated. The complete details of Schedule No. 7 are not, at present writing, available to me. A statement of the essential results accomplished by the office in court during the year is embraced, however, in the table inserted at the end of this report in which the work of the three years, 1885, 1886 and 1887, are contrasted.

SCHEDULE No. 8.

This is a list of the moneys collected by the Office of the Corporation Counsel, as distinguished from the bureaus, during the year. The total, including the amount of the Erie settlement herein-after mentioned, was ~~\$545,523.24~~ *\$425,131.12*.

SCHEDULE No. 9.

This is a table showing the condition and disposition of street and park opening proceedings.

The year has been one of extraordinary and unprecedented activity in street opening proceedings, and I view the results with great satisfaction.

The following table, exhibiting a contrasted statement between 1886 and 1887, speaks for itself :

	1886.	1887.

MISCELLANEOUS WORK.

Water-front Litigation.

In matters relating to the water-front of the City the record for the year presents several matters of great importance. In April the action against the executors, etc., of George Law, was finally decided in favor of the City by Hon. H. C. Van Vorst, the Referee therein. By this decision valuable wharf property on the East river at the foot of Tenth street was secured to the City, and a precedent established by which it will become entitled to several valuable pieces of pier property between Sixth and Thirteenth streets.

In June the General Term of the Supreme Court handed down decisions reversing the judgment in the case of Kingsland, and setting aside reports of amount of damage in Langdon against the Mayor, establishing the important principle as claimed by the City, that in estimating the value of wharfage rights taken by the City in connection with the West street improvement, it is improper to include the value based upon and derivable from the use or rental of sheds built upon the land under water in front of the bulkhead. The amount directly involved in these decisions is over \$700,000, and the saving to the City involved in the application of the principle to other like property will be several millions more. Several important acquisitions of property on the North river for the purpose of this improvement have been made, requiring the advice and assistance of this Department. The Comptroller has made a settlement and adjustment of the claims in the important action brought against the heirs and devisees of Henry A. Burr, deceased. By this settlement the City secures the preemptive and water rights of the owners in front of the block between Twenty-seventh and Twenty-eighth streets, North river, relinquishes to the owners the land partly filled up by them from Eleventh to Thirteenth avenue, and receives in cash therefor nearly \$100,000.

The City's Interests at Albany.

An important part of the work of the Counsel to the Corporation consists in watching the course of legislation affecting the interests of the City, and this duty increases each year as the volume of proposed legislation grows greater. For some years past the exclusive attention of one of the *Assistants* has been devoted to this portion of the work, from the commencement of the legislative

session in January to the final hearings before the Governor during the thirty days allowed him after the adjournment of the Legislature to pass upon all bills left in his hands.

During the session of 1887 upwards of 300 bills directly affecting the public interests of the City were introduced, and of these 263 were found upon examination to be of sufficient importance to require records to be kept showing their progress. Each bill, when introduced, was carefully examined, and a record made of its introductory number, the title, and, in a summary form, its purport, as well as a note of the Committee to which it was referred. Each bill was then compared with existing laws for the purpose of determining its precise effect, and the Assistant detailed for that duty appeared before the Committee to which the bill was referred opposing it, favoring it, or suggesting amendments, as the occasion might require. Of the bills of which such a record was kept at the last session of the Legislature, 34 were prepared by the Law Department at the request of the Mayor, or of some of the heads of departments. To 26 others amendments were drawn for the purpose either of eradicating objectionable provisions, or of conforming the proposed bill to existing laws.

Of the bills thus introduced, nearly 100 passed both houses of the Legislature and went to the Governor for action. In the case of each bill thus passed, it became necessary to carefully examine the engrossed bill and compare it with the printed bill acted upon by the Legislature, and in every case of a bill affecting the City's interests, which reached the Governor, a brief was prepared and submitted to him showing the purport and effect of the bill, and stating the approval or disapproval of the municipal authorities.

Eighty-nine bills directly affecting the City of New York became laws. The results attending this careful and laborious scrutiny and watchfulness over proposed legislation have been found to be most satisfactory.

Number of Opinions Given.

Another very important branch of the office work, the nature and extent of which is perhaps not fully appreciated by the public, is the preparation of opinions. During 1887 there were opinions given, as follows :

Comptroller	247
Public Works Department	77
Dock Department	12
Park Department	48
The Mayor	56
Police Department	45
Fire Department	7
Street Cleaning Department	2
Aqueduct Commission	14
Board of Street Openings	7
Department of Charities and Correction	9
Common Council	14
Board of Assessors	12
Taxes and Assessments	6
Board of Estimate	12
Board of Education	1
Board of Revision and Correction of Assessments	1
Armory Board	9
Board of Electrical Control	2
Total	581

There were received from the Police Department 339 reports of accidents, which were examined into and filed.

There were received from the Finance Department 975 requests for the examination of claimants. Oral examinations, under oath, were conducted in 510 of these ; that 510 claimants only were examined, where 975 requests for examination were received, is explained by the fact that a large number of the claims filed were in assessment matters, where, all the facts being already within the knowledge of City officers, examinations were unnecessary.

There were contracts examined or drafted and approved as to form, as follows :

Department of Public Works.....	243
Department of Public Parks.....	29
Department of Charities and Correction	66
Department of Docks	26
Fire Department	14
Armory Board.....	12
Aqueduct Commission... ..	10
Police Department	3
Total	<u>397</u>

GENERAL REMARKS.

The office force, which varied from time to time during the year, owing to various causes, consisted at its close, as shown by the December pay-roll, of :

The Counsel to the Corporation.

One First Assistant.

Seven Assistants.

Eight Junior Assistants.

Four Senior Law Clerks.

Four Junior Law Clerks.

One Chief Clerk.

One Deputy Chief Clerk.

One Register Clerk.

Four Clerks.

One Copyist.

Five Typewriters.

Five Stenographers.

Two Examiners.

One Librarian.

Three Messengers.

Two Messenger Boys.

In all, 51 individuals ; at the end of the year 1886, 44 individuals composed the force.

THE RING SUITS.

It is proper to make some mention of the litigation which arose out of the frauds perpetrated by the Tweed Ring.

When I was appointed to be Counsel to the Corporation, I found a number of old suits still pending and undisposed of. With regard to these cases, I ascertained that it was recommended in May, 1885, by Horace E. Deming, Esq., Special Counsel to the Commissioners of Accounts, in his report on the office of the Counsel to the Corporation, that as soon as possible the Corporation Counsel should secure written reports from the various eminent counsel who had been originally retained by the City, as to whether it was desirable to prosecute the cases further, or whether on account of defective proof or the pecuniary irresponsibility of the defendants, the cases should be discontinued. With the intention of finally disposing of these old cases, my predecessor, Judge Lacombe, addressed letters to several of the counsel in whose hands, respectively, the cases appeared to be, inquiring as to the status of each case, and Judge Lacombe, himself, collected a great deal of information touching the situation and present condition of the respective defendants. Following upon the lines indicated by him, I pursued further inquiries as to this group of old cases and consulted Judge Lacombe about them, and advised with eminent counsel. In pursuance of the recommendations made by these gentlemen, namely : Messrs. Wheeler H. Peckham, Francis C. Barlow, James C. Carter, Thomas Allison and George Ticknor Curtis, I wrote you on the 12th instant, enumerating 31 separate suits, that it was my intention to finally dispose of them all by appropriate stipulations with the respective defendants or their representatives, unless good reason should be shown to the contrary.

Considerable public interest seems to have been excited by this recommendation, and further inquiries are now being made concerning one of the cases, in view of facts recently called to our attention. I feel satisfied, however, that it will be the better course to discontinue them as originally

proposed, with perhaps one or two exceptions ; and I shall make a suggestion accordingly, to my successor.

THE ERIE SETTLEMENT.

Among the moneys collected during the year was the sum of one hundred thousand dollars (\$100,000), received from the New York, Lake Erie and Western Railroad Company in settlement of taxes and assessments imposed upon the premises bounded by Washington, West, Duane and Reade streets, in this city, since 1869.

These premises are occupied by the railroad company under a lease made in 1850 by the City to the old New York and Erie Railroad Company. The lease contained a covenant that the lessee should pay the taxes and assessments imposed upon the premises during the term of the lease ; but since 1869 the company and its predecessors have declined to pay.

In 1878, therefore, an action was brought to recover the taxes and assessments accrued at that time. The company defended, and retained eminent counsel who contended that only taxes and assessments to be imposed upon their *leasehold interest* was intended by the covenant and that as they were imposed upon the *fee*, the company was not bound to pay them, and further that the City had no right to tax its own property and so could create no obligation thereby which the company was bound to discharge. Other questions arose as to whether the present corporation was liable at all for the taxes and assessments accruing before its organization. The legal propositions presented by these contentions are not free from doubt, and although many offers of settlement at a much smaller amount were made and rejected as being inadequate, the one mentioned was regarded as very advantageous to the City, and was therefore accepted, and this long pending litigation disposed of.

In his annual report for 1885, Judge Lacombe stated that the force provided to deal with the business of 1886 was for the first time in several years adequate to cope with the demands of current business, and at the same time attack the large accumulation of unfinished cases ; it was shown that more work was done in the year 1885 than in the preceding years, and confidence was expressed that " the ensuing year (1886) would witness a still greater measure of equally efficient work." And so it was. Equally significant, however, is the record of the work done in 1887, as the following table will show :

	1885.	1886.	1887.
Total actions and special proceedings pending and undisposed of } December 31.....	5,646	4,960	4,600

Total cost to the City of the Office of the Counsel to the Corporation...	\$136,397 51	\$148,378 56	\$175,195 40

The municipal tax-payers can view this statement with entire satisfaction. Considering the nature and extent of the City's legal affairs, it clearly appears that the transactions of the year, which are probably greater than those of any other law office in the United States, have been conducted on sound business principles.

The ensuing year will make large demands upon the office, but with the existing force and equipment and with the means recently appropriated to carry on the work, the record for 1888 should exhibit equally substantial results.

I am, sir, very respectfully yours,

MORGAN J. O'BRIEN,

Counsel to the Corporation.

REPORT OF STREET OPENING PROCEEDINGS FOR YEAR 1887.

OFFICE OF THE CLERK OF STREET OPENINGS, }
NEW YORK, December 31, 1887. }

Hon. MORGAN J. O'BRIEN, Counsel to the Corporation:

SIR—I have the honor to transmit herewith report of street opening proceedings for the year terminating December 31, 1887.

You will observe that the report is in a somewhat different form from that heretofore adopted. The change, I think, will render the report more convenient and easy of reference.

The statistics of the work performed during the year are embraced in six schedules, as follows :

SCHEDULE 1.

This schedule is sub-divided into two heads "A" and "B."

"A" is a complete list of proceedings considered during the year terminating December 31, 1887, showing the length of the street or avenue or portion of the street or avenue sought to be opened, and, where reports were confirmed during the year or preliminary reports completed, the amount of awards, total assessment, number of parcels assessed and number of city lots assessed.

"B" is a statement showing the condition of each proceeding, considered under "A," on the 31st day of December, 1887.

This schedule shows that there have been under consideration during the year ninety proceedings.

SCHEDULE 2.

This is a list of proceedings confirmed during the year, with the dates of the entries of orders of confirmation.

It appears from this schedule that there have been confirmed during the year twenty-four proceedings.

SCHEDULE 3.

This is a list of proceedings discontinued during the year, with the dates of the entries of orders of discontinuance.

This schedule shows that two proceedings have been discontinued during the year.

SCHEDULE 4.

This is a list of proceedings instituted during the year, with the dates of the appointments of Commissioners of Estimate and Assessment.

The number of proceedings instituted during the year as shown by this schedule is thirty-six.

SCHEDULE 5.

This is a list of proceedings pending on the 31st day of December, 1887.

This schedule shows the number of proceedings pending to be sixty-six.

SCHEDULE 6.

This is a list of proceedings in which appeals have been taken to the General Term, either on the part of the City or on the part of property-owners.

The number of such proceedings is shown by this schedule to be four.

These schedules are followed by a summary of the work performed during the year.

It will be observed that the aggregate of the awards is somewhat over \$30,000 greater than the aggregate of the assessments.

The explanation of this is that in the Twenty-second Ward Park matter there was, under the provisions of the act pursuant to which title was sought to be acquired, no assessment levied for benefit.

The communications written during the year greatly exceed those written last year, aggregating thirteen hundred and eighty-two.

Respectfully yours,

CARROLL BERRY, Clerk of Street Openings.

They delayed completing their preliminary report until the opinion which had been requested from the Counsel to the Corporation in the "matter of Welch street," which involved precisely the same question had been obtained. This opinion has recently been received. The Commissioners have obtained from the Department of Public Parks the final damage and benefit maps and their preliminary report will be filed for the objections of property-owners during January, 1888.

Report of the Public Administrator.

BUREAU OF THE PUBLIC ADMINISTRATOR,
No. 49 BEEKMAN STREET,
NEW YORK, December 31, 1887. }

Hon. MORGAN J. O'BRIEN, Counsel to the Corporation :

SIR—In compliance with the regulation of your Department, requiring the Public Administrator to render to you, annually, a full and complete report of all the proceedings of this Bureau, I beg to submit the following report for the year ending December 31, 1887 :

The number of estates reported which were investigated by the Bureau was three hundred and forty-one.

Letters of administration have been granted and received on one hundred and fifty-one estates.

Letters of administration, with the will annexed, have been granted and received on six estates.

Letters of temporary administration have been received on one estate.

The account of proceedings of the Public Administrator have been judicially settled and allowed by the Surrogate in eighty-nine estates, and the estates distributed pursuant to the decree of the Surrogate.

In eight hundred and sixty-five estates, averaging very small amounts, the money and assets were received from the Coroners' Office and Commissioners of Charities and Correction, and paid directly into the City Treasury.

Objections were filed to one of the accounts above mentioned, but were subsequently withdrawn.

No references or contests are now pending involving any question as to the correctness of said accounts.

Two references are now pending before referees relating to the question of kinship, but involving no other question.

Twenty-one actions were commenced in courts of record against the Public Administrator and six by him.

Three special proceedings are now pending to determine the validity of rejected claims.

Citations were served in forty cases on application by creditors for letters of administration, and letters were granted to the Public Administrator in sixteen cases.

In fifty cases citations were served on the Public Administrator to attend the probate of a last will and testament, and his appearance noted.

About two thousand notices were served on hotel and boarding-house keepers and others pursuant to law.

All reports and returns to the Comptroller, Common Council, and to the Supervisor of the CITY RECORD have been rendered.

The amount paid into the City Treasury for commissions and intestate estates was sixty thousand four hundred and thirteen dollars and fifteen cents.

The amount collected and received was one hundred and fifty-nine thousand and forty dollars and ninety-six cents, exclusive of stocks, bonds and other kinds of personal property.

The amount disbursed to creditors, next of kin, and for expenses of administration upon estates judicially settled was one hundred and seventy-four thousand five hundred and ninety-one dollars and sixty-seven cents.

The balance on hand was two hundred and thirty-two thousand and four dollars and eighty-nine cents.

Deposited in Importers and Traders' National Bank.....	\$81,247 03
Deposited in Continental National Bank.....	71,151 79
Deposited in National Park Bank.....	79,606 07

The balance of the account of the Public Administrator with the Guardian Savings Institution still remains \$12,233.60, as shown by previous reports. This sum represented the aggregate amount of certain old, unclaimed and unsettled estates and certain commissions on these and other estates which had been settled. It being doubtful whether the receiver of that bank would be able to pay any further dividend, an act was passed by the Legislature at its last session (chapter 573 of the Laws of 1887) which authorized the Public Administrator to pay into the City Treasury, out of his accumulated interest account, the amount of these unsettled estates and the commissions. Under the authority thus conferred, the undersigned has paid into the City Treasury during the past year, the sum of \$12,233.60, of which \$2,178.41 was for commissions, and \$10,055.19 was the aggregate of many unsettled estates, which had remained unsettled for many years for the reason that the money was deposited in the Guardian Savings Institution and could not be obtained. The City was liable for these estates, and by the payment of the amount of said estates out of the interest account above mentioned, this liability was practically extinguished.

APPENDIX—(Continued).

The following estates have been closed under the authority of said act :

141 estates in the Guardian Savings Institution.

120 estates in the Consolidated Account.

178 estates under \$250 each.

83 estates of small amounts received from Coroner.

51 estates of small amounts received from Commissioners of Charities and Correction.

49 estates of small amounts received from Health Department.

83 estates under \$20, each balance turned directly into City Treasury.

The total number of estates closed under said act, therefore, was 705. These, together with 89 estates judicially settled by the Surrogate, make an aggregate of 794 estates distributed by the Public Administrator during the year.

The act above mentioned also provides that in closing estates of less than \$250, the citations to non-residents, issued on the judicial settlement of the accounts of the Public Administrator, may be served by mailing. This avoids the necessity of publishing the citation in a large number of cases, as was formerly necessary, and saves an expense in each case of about twenty-five dollars.

I annex hereto a tabulated statement showing the extent of the increase of the volume of business of this Bureau since the year 1875.

Full details concerning many matters, above referred to, will appear in the annual report to be filed with the Common Council, on or before January 14, and in the monthly reports to the same body.

Respectfully,

RICHARD J. MORRISON, Public Administrator.
